

DEPARTMENT OF FAMILY & CONSUMER SCIENCES

Chair: Susan A. Reichelt (sreichelt@shsu.edu) (936)-294-4129

Information: familyandconsumersciences@shsu.edu ; (936) 294-1242; Box 2177 SHSU, 1700 University Ave., Huntsville, TX 77341-2177

Website: www.shsu.edu/~hec_www/ (http://www.shsu.edu/~hec_www)

Mission

The Department of Family and Consumer Sciences is dedicated to providing students with intellectual and professional skills relating to family and individual needs. The curriculum aims to provide students with the breadth and depth of competencies needed within the various professional fields associated with the department as they enter a global marketplace.

Highlights

- 100% pass rate for Teacher Certification students taking the content area exam
- Food Science and Nutrition Program accredited by The Academy of Nutrition and Dietetics
- Dietetic Internship Program available for qualified FSN graduates (leads to R.D. credential)
- Interior Design Program accredited by the Council for Interior Design Accreditation
- Kappa Omicron Nu Honor Society for Family and Consumer Sciences (Kappa Alpha Phi Chapter)

Suggested Minors

Programs in the Department of Family and Consumer Sciences **do not** require a minor; courses required by the accredited programs essentially constitute a minor for those programs. However, a minor may be elected for any program, in keeping with student career goals. Students graduating with a degree in the DPD program (Food Science and Nutrition) have minored in Chemistry, Mass Communication, Psychology, and other areas. Students majoring in Fashion Merchandising, Food Service Management, and General Family and Consumer Sciences (without teacher certification) commonly minor in General Business Administration, Marketing, or Management. Interior Design majors often minor in Construction Management (several options) or General Business Administration. Students who are pursuing the BS in Family and Consumer Sciences with the Teacher Certification Option must take all courses required by the College of Education for certification and may also pursue a minor area of study.

Career Opportunities

For the following program areas, employment opportunities include but are not limited to:

- Family and Consumer Sciences (general)
 - sales representative for consumer products
 - AgriLife extension agent
 - consumer specialist
 - event planner
 - retail merchandiser for interior furnishings
- Family and Consumer Sciences with certification
 - FCS secondary teacher
 - AgriLife extension agent
- Fashion Merchandising
 - retail store manager
 - retail apparel buyer
 - visual display specialist
 - merchandiser for a line
 - sales representative for a line
- Food Science and Nutrition
 - Registered Dietitian (with required post-graduate internship)
 - clinical settings
 - wellness
 - community
 - administrative
 - public health
 - corporate in food manufacturing, food distribution, other
 - food service/nutrition director for hospitals, schools

- nutritional consultant to sports teams, gyms, corporate executives, food companies, cruise lines, spas
- food scientist
- sports nutritionist
- food stylist
- non-profit community nutrition programs (USDA, WIC)
- spokesperson for food councils (wheat, rice, beef, etc.)
- Food Service Management
 - restaurant manager
 - food service director for hospitals, schools
 - food production developer
- Interior Design
 - residential designer
 - commercial designer
 - restaurant designer
 - office designer
 - retail designer
 - model home designer
 - space planner
 - set stylist
 - product representative to the interior design industry

Students have multiple opportunities to learn about careers associated with their degree programs, including Saturdays@Sam (one each fall and spring semester), SAM Center advising, advising within the department, career fairs sponsored by Career Services, and guest speakers and field trips sponsored through classes and pre-professional student organizations.

Upon completion of a bachelor's degree, qualified students may choose to apply for admission to one of the Graduate programs in Family and Consumer Sciences. Refer to the *Graduate Catalog* (<http://www.shsu.edu/home/catalog.html>) for more details.

Student Organizations

- American Society of Interior Designers: student chapter
- Family and Consumer Sciences Teachers Association of Texas: student section
- Fashion Merchandising Club
- Kappa Omicron Nu, Kappa Alpha Phi Chapter (honor society for Family and Consumer Sciences)
- Sam Houston Student Dietetic Association
- Student Event Planner Association

Internships and Study Abroad

All students who complete programs in Fashion Merchandising, Food Service Management, General Family and Consumer Sciences (without teacher certification), and Interior Design must complete a supervised internship (FACS 4369) of at least 300 supervised clock hours as a requirement for graduation. Students are given leads for securing internship opportunities, but part of the internship experience is the securing of a suitable position. Students in the General FCS program pursuing the Teacher Certification option are required to complete a semester of student teaching through the College of Education.

Students majoring in Food Science and Nutrition are required to complete a number of shadowing hours in several junior- and senior-level courses to complete knowledge requirements of The Academy of Nutrition and Dietetics (i.e., FACS 3445, FACS 4360, and FACS 4361).

Students have the opportunity to travel to Europe to study the works and lives of chemists and their influence on our world, especially in the area of textiles, food sciences, and nutrition. This program is offered in cooperation with the Department of Chemistry (FACS 3350).

Scholarships

Competitive scholarships and awards are given annually to full-time students of at least junior standing majoring in one of the program areas in Family and Consumer Sciences. **(Award recipients must be enrolled at Sam Houston State University for a minimum of one semester as a full-time student, must have completed 12 hours in FACS, and must be following the curriculum of a program major within the Department of Family and Consumer Sciences with full-time student status.)**

- Ashley K. Greene Family Scholarship **(Fashion Merchandising Majors Only)**
- Drs. Robert (Bob) and Mary Barnes Harris Endowed Scholarship **(Teacher Certification Majors Only)**

- Elmadel Driscoll Robinson Home Economics Endowed Scholarship
- Family and Consumer Sciences Memorial Endowed Scholarship
- Fray Stallings Wells Endowed Scholarship
- J. E. "Bo" Crews Retailing Award (**Fashion Merchandising Majors Only**)
- Keener Family Scholarship in Family and Consumer Sciences
- Lynch Family Endowed Scholarship
- Mattie Bea Prather Medford Family and Consumer Sciences Endowed Scholarship
- Rachel Mary Prather Allen Family and Consumer Sciences Endowed Scholarship
- Wiley G. and Marian Boyd McDonald Endowed Scholarship

Many other scholarship opportunities are available, including those based on academic record of the incoming student. Many organizations at the national, state, and local level, including professional organizations and corporations, offer scholarships for specific majors within the department. Students should check specific criteria required by these organizations. Brochures and information concerning the department and scholarships may be obtained by writing:

Department of Family and Consumer Sciences
 Box 2177
 Sam Houston State University
 Huntsville, Texas 77341-2177

or e-mail your request to familyandconsumersciences@shsu.edu . Website: www.shsu.edu/~hec_www/ (http://www.shsu.edu/~hec_www/) .

Program Specific Requirements

Most degree programs within the Department of Family and Consumer Sciences require completion of two core courses, FACS 2368 and FACS 4362. Students have multiple opportunities to learn about degree requirements through the admission and advising process, including Saturdays@Sam (one each fall and spring semester), SAM Center advising, advising within the department, and advising through career fairs sponsored by Career Services at SHSU.

- Bachelor of Science, Major in Family and Consumer Science With Teacher Certification (catalog.shsu.edu/archives/2016-2017/undergraduate/colleges-academic-departments/health-sciences/family-consumer-sciences/bs-family-consumer-science-teacher-certification)
- Bachelor of Arts, Major in Family and Consumer Sciences (General) (catalog.shsu.edu/archives/2016-2017/undergraduate/colleges-academic-departments/health-sciences/family-consumer-sciences/ba-family-consumer-sciences-general)

- Bachelor of Science, Major in Interior Design (catalog.shsu.edu/archives/2016-2017/undergraduate/colleges-academic-departments/health-sciences/family-consumer-sciences/bs-interior-design)
- Minor in Family and Consumer Sciences (catalog.shsu.edu/archives/2016-2017/undergraduate/colleges-academic-departments/health-sciences/family-consumer-sciences/minor-family-consumer-sciences)

FACS 1330. Intro Soft Textiles Constructn. 3 Hours.

Fundamental principles and techniques of clothing and textiles-based interior elements construction are studied. Pattern alteration and fitting techniques are included. Practical applications are provided through laboratory experiences. (2-2). Offered spring semesters.

FACS 1331. Intro To Hospitality Industry. 3 Hours.

An overview of the hospitality industry, this course includes restaurants, hotels and resorts. Includes historical perspective, analysis of the industry in terms of professional opportunities and the future outlook for the industry. (3-0). Offered fall semesters.

FACS 1360. Basic Principles of Design. 3 Hours.

Specific attention is given to fundamental art elements and principles of design as they function in the lives of individuals and their environments. Opportunities are provided for a variety of experiences with art media through lecture-demonstrations. Practical application in two-dimensional and three-dimensional projects is made through laboratory experiences. (2-2).

FACS 1367. Basic Nutrition. 3 Hours.

Basic principles of nutrition in health and disease. The modern concept of an adequate diet based upon the nutritional needs of the individual is stressed. Two interrelating factors, the influence of nutrition on disease and the influence of disease on nutrition, are stressed. Emphasis is placed on food selection and quality of nutrients in normal diets. (3-0). Offered spring semesters.

FACS 1441. Food Preparation And Selection. 4 Hours.

Scientific principles in the preparation of selected basic food products are applied. Consideration is given to the composition and properties of food, methods of preparation and processing to retain nutrients, standards for desirable products, simple meal service, and food economics. Practical application is made through laboratory experiences. (3-2).

FACS 2078. Special Topics in FCS. 1-3 Hours.

On-line instruction provides opportunities for students to take lower-level courses through the Family and Consumer Sciences Distance Education Alliance (open to FCS teacher certification majors only). Registration is permitted only with departmental approval. Course may be repeated for credit. Variable Credit (3-4).

Prerequisite: Permission of instructor.

FACS 2361. History of Furnishings I. 3 Hours.

A study of history of interior furniture, furnishings, and architecture from the Egyptian period to the Renaissance. Emphasis is given to the social, economic, and political conditions that influenced furniture, interiors, and architectural design. (3-0). Offered spring semesters.

FACS 2362. Nutrition. 3 Hours.

Study is made of the fundamental concepts of nutrition. The various nutrients, their sources, metabolism, physiology and interrelationships are emphasized. Requirements at different stages of growth and development are studied. Experience is provided in making dietary studies and in adjusting meals for individuals and population groups. (3-0). Meets requirement for pre-nursing curriculum.

Prerequisite: BIOL 2401.

FACS 2364. Design Theory And Materials. 3 Hours.

A theoretical analysis of design is merged with understanding of interior materials and products which meet human needs. Assessment of quality and performance criteria is emphasized, along with the design process. (3-0). Offered fall semesters.

Prerequisite: FACS 1360.

FACS 2365. Digital Drawing for Interiors. 3 Hours.

This course addresses computer graphics for interior designers. It will focus on the implementation of computer-aided design processes and drafting techniques to produce construction and presentation drawings. Students will explore various digital drafting techniques to develop 2-dimensional and 3-dimensional drawings. Offered spring semesters.

Prerequisite: Grade of C or better in FACS 2364 and FACS 2387.

FACS 2366. Fashion In Society. 3 Hours.

Basic fashion theory is studied along with theories of dress and adornment from both psychological and sociological perspectives. The course also examines the individual's attitudes toward and perceptions of personal dress and the appearance of others. Offered fall semesters. (3-0).

FACS 2368. Consumer Education. 3 Hours.

This study of consumer goods and services includes the study of rational consumer decisions in an electronic economy, major consumption expenditures, budget management, risk management, financial management, quality assessment, marketing, and consumer legislation. (3-0).

FACS 2369. Introduction To Textiles. 3 Hours.

This course provides an introduction to fiber science and technological advances in the manufacture of textile products. It focuses on the complex interrelationships of fibers, yarns, fabrics, finishes, and coloring processes. Offered spring semesters and summer. (3-0).

FACS 2386. Space Planning Fundamentals. 3 Hours.

This course provides the student with an introduction to the complex process of planning residential and small commercial spaces for interior design. As part of the design process, space planning begins with a programmatic investigation of human needs, desired spatial quality, and building parameters. Students will explore space planning variations applied to a variety of interior spaces, stressing the importance of the changing needs in design development and problem solving. Influencing factors such as the human element, barrier-free design and building systems are included.

Prerequisite: FACS 1360.

FACS 2387. Architectural Graphics For Int. 3 Hours.

The course focuses on the development of two-dimensional graphic representations of architectural design. Practical application is achieved through development of drafting skills and representational sketching. (2-2). Offered spring semesters.

Prerequisite: MATH 1332 or MATH 1314.

FACS 2388. Building Systems For Interiors. 3 Hours.

This course focuses on helping students to develop an understanding of building systems as they apply to interior design. Student understanding of systems is communicated in drawing of construction, electrical, mechanical, ceiling and floor systems as part of design solutions. (2-2). Offered spring semesters.

Prerequisite: FACS 2387 with a grade of C or better.

FACS 2441. Meal Management In Hospitality. 4 Hours.

This course includes choice, purchase, preparation and service of meals in hospitality settings. Through laboratory experiences emphasis is given to table settings and appointments, various forms of meal service and special occasion functions. The importance of acceptable social procedures and aesthetic values related to the above activities are stressed. (3-2). Offered spring semesters.

FACS 3330. Patternmaking & Apparel Produc. 3 Hours.

Industry techniques in the construction and fit of garments from original designs. Construction using superior quality techniques is emphasized. Students develop skills in use of apparel production equipment. (2-2). Offered fall semesters.

Prerequisite: FACS 1330, FACS 1360, and FACS 2369.

FACS 3332. Lighting Applicans Interiors. 3 Hours.

This course provides basic principles of light and color, measurement and control of light as applied to human needs in both residential and commercial interiors. Environmental systems for day lighting and solar design are studied. (3-0). Offered fall semesters.

Prerequisite: FACS 2364, FACS 2387 and FACS 2388 with a grade of C or better.

FACS 3334. Lodging Operations. 3 Hours.

A study is made of principles involving basic operations of hospitality facilities including guest expectations, management of services, budget control, personnel management and security. (3-0). Offered spring semesters.

Prerequisite: FACS 1331.

FACS 3335. Event Administration. 3 Hours.

This course prepares students to attain the operational skills involved in event administration. The course focuses on social and corporate events, target markets and market segments, budgeting and forecasting, theme and proposal writing, and logistics and planning for on- and off-premise events. The course also examines the benefits of networking, promoting sales and marketing, and the importance of human resource issues in event administration.

Prerequisite: Junior Standing.

FACS 3337. Design Process. 3 Hours.

This course will focus on the implementation of the design process through drawings and model construction techniques. Students will explore various rendering media and develop three-dimensional drawings along with volumetric study of spaces. (1-4). Offered fall semesters.

Prerequisite: Grade of C or better in ARTS 1316, FACS 2365, and FACS 2388.

FACS 3338. Residential Design. 3 Hours.

This course will focus on applying the design process to residential spaces. It will include development of schematic and technical drawings, material selection, perspective representations of space, and specifications. (1-4). Offered spring semesters.

Prerequisite: Grade of C or better in FACS 3337 and ETCM 2363.

FACS 3339. Community and Life Cycle Nutri. 3 Hours.

This course explores communities and their composition and influences on nutrition habits and nutrition status. Community, state, and national food and nutrition programs and services will be discussed with emphasis on program goals, target audiences and policy formulation. The course also explores program development via assessing needs, developing objectives, implementing interventions and evaluating programs. (3-0). Offered spring semesters.

Prerequisite: FACS 1367 or FACS 2362.

FACS 3350. Discovery in Chemical, Textile, and Nutritional Science. 3 Hours.

This study abroad course is focused on 18th- to early 20th-century scientists, with special emphasis on the times in which they worked, important aspects of their efforts, the impact of their personal lives on their scientific careers, and their enduring legacy to contemporary society in the form of discoveries in chemistry, biochemistry, textiles, and nutritional science. Lectures take place in the same geographical settings where the work occurred. Offered odd years during the Spring/Summer I break. Cross-listed with CHEM 3361.

Prerequisite: CHEM 1406 or CHEM 1411, and junior standing, or department approval.

FACS 3360. Int Dsgn Prof Prac & Procedure. 3 Hours.

This course includes fundamentals of business procedures used in interior design residential and commercial establishments. Practical application is implemented through design project management. (3-0). Offered spring semesters.

Prerequisite: Grade of C or better in FACS 2364 and FACS 2388.

FACS 3361. History of Furnishings II. 3 Hours.

This course is focused on the study of history of interiors, architecture, and furnishings from the post-Renaissance era to the present. Emphasis is given to the social, economic, and political conditions that influenced furniture, interior, and architectural design. Offered fall semesters.(3-0).

FACS 3364. Suvery of Interior Design for Non-Majors. 3 Hours.

This course is designed for students pursuing teacher certification in secondary Family and Consumer Sciences. Content includes design theory, materials, space planning, manual and computer-aided project drafting, and project planning and implementation. This course will not count as credit toward the major in Interior Design. Offered spring semesters.

Prerequisite: FACS 1360 and completed 45 hours.

FACS 3367. Food Science. 3 Hours.

This course provides fundamentals of physical and chemical structures and properties of food materials and foods during harvesting, preparation, processing, preservation and storage. (1-4). Offered fall semesters. , CHEM 4 hrs., FACS 1441, FACS 1367 or 2362.

Prerequisite: BIOL 4 hrs.

FACS 3369. Family Relationships. 3 Hours.

This course focuses on analysis of the changing and supportive role of the members in the contemporary stages of the family life cycle. Study is made of family heritage and family interaction patterns with an emphasis on individual development. (3-0).

Prerequisite: Junior standing.

FACS 3370. Nutritional Pathways. 3 Hours.

This advanced course establishes knowledge and understanding of nutritional concepts in the biochemical context. Biochemical, physical and metabolic functions of the nutrients; pathways of each nutrient in the diet from ingestion through digestion, assimilation and metabolism; digestive and metabolic interactions between drugs and nutrients are discussed. This course cannot be used for credit toward biology or chemistry majors. (3-0). Offered fall semesters.

Prerequisite: CHEM 1412, FACS 2362, and juniro standing.

FACS 3371. Fashion Merchandising. 3 Hours.

This course addresses fundamental principles for successful merchandising of fashion goods, including sales, buying, and marketing procedures. Analysis of consumer and customer demands also are explored. Taken prior to FACS 4369 Internship. (3-0). Offered fall semesters.

Prerequisite: Junior standing.

FACS 3376. Textile Science. 3 Hours.

This course involves exploration of textiles from a scientific perspective is emphasized, explaining the interactions among textile fibers, finishes, dyes and laundry products that impact maintenance of textile products and performance criteria. Students are exposed to hands-on experiences with various fibers, finishes, and dyeing processes. (3-0). Offered fall semesters.

Prerequisite: FACS 2369, sophomore standing.

FACS 3377. Codes,Stndrds & Facility Maint. 3 Hours.

A study of laws, codes, standards and regulations that are in effect to protect human health and safety is the focus of this course. Included are the fire and life safety codes, barrier-free design, and ergonomics. (3-0).

Prerequisite: Junior standing.

FACS 3378. Fashion Promotion. 3 Hours.

Promotion principles are applied to the merchandising of fashion goods through special events, displays of merchandise, and advertising and personal selling. (3-0). Offered spring semesters.

Prerequisite: FACS 1360.

FACS 3380. Advanced Nutrition. 3 Hours.

Course focus is on concepts of normal nutrition in relation to the chemistry and physiology of the human body; analysis of methods used in assessing human nutrition status; evaluation of current nutritional problems. Offered spring semesters.

Prerequisite: FACS 3370.

FACS 3440. Pattern Mkg & Adv Cloth-Honors. 4 Hours.

FACS 3445. Quan Food Pur Prep & Ser. 4 Hours.

Course provides experience in menu planning, food preparation, service, and use of institutional equipment in quantity food service. Principles and methods of buying, preparing, and serving food for various types of quantity food facilities are considered. Factors affecting food quality, food costs, and quantity food production as related to the time factor are emphasized. Planned to meet the needs of dietitians, food service administrators, lunchroom supervisors, family and consumer sciences teachers and others in related areas. Field and practical application is provided. Laboratory experiences arranged. (2-4).

Prerequisite: FACS 1441 or FACS 2441, 45 hours completed.

FACS 4068. Research Problems. 1-4 Hours.

Seminars provide adequate research experiences for students having special needs and requirements for the completion of work for a degree. Registration is permitted only by approval of the department chair. Course may be repeated for credit. Variable Credit (1-4) .

Prerequisite: Junior standing.

FACS 4330. Commercial Design I. 3 Hours.

A study is made of design development of interiors through analysis of space and structure. Focus is on comprehensive design solutions implemented through multiphase projects including space planning, contract documents, specifications, finish selections, sustainability, and various presentation techniques. (1-4). Offered fall semesters.

Prerequisite: FACS 3338 and FACS 3377 with a grade of C or higher and senior standing.

FACS 4331. Commercial Design II. 3 Hours.

The capstone course for Interior Design majors, this course includes a semester-long project or a series of comprehensive projects preparing students for internship and professional office settings. Students are encouraged to demonstrate knowledge gained to-date to solve various design situations. Graphics presentations include hand and digital drawings and media. (1-4). Offered spring semesters.

Prerequisite: FACS 4330 with a grade of C or higher, senior standing.

FACS 4333. Child Dev & Guidance. 3 Hours.

This course includes directed observation and participation in a child development center or public school setting to provide students with experience in the practical aspects of child development. Emphasis is placed upon helping children build feelings of security and adequacy and maintaining limits of behavior. Lectures are concerned with types of child-based care, rearing and guidance; growth and development; clothing; and nutrition for prenatal through adolescent years. (3-0). Offered fall semesters.

Prerequisite: Junior standing or permission of instructor.

FACS 4360. Clinical Dietetics I. 3 Hours.

Study is made of diet therapy as it is concerned with its use as an agent in affecting recovery from illness. Course includes the latest developments in dietary manipulations during disease states including enteral and parenteral nutrition. Nutritional adequacy of therapeutic diets is stressed, with emphasis placed on sociological, economic, emotional and psychological factors in feeding the sick. Students enrolled are required to spend 20 hours in observation in the dietary department of a local hospital to gain hands-on knowledge of clinical dietetics. (3-0). Offered fall semesters .

Prerequisite: FACS 3370 and FACS 3380, senior standing.

FACS 4361. Clinical Dietetics II. 3 Hours.

This course is a continuation of the prerequisite course, FACS 4360 (Clinical Dietetics I). In this course the student will examine the applications of medical nutrition therapy in the prevention and management of various medical conditions and chronic and acute disease states through lecture, discussion and clinical case studies. Students are required to spend additional time (20 hours) observing dietitians at a local hospital in order to enhance learning and refine clinical practice skills. (3-0). Offered spring semesters.

Prerequisite: FACS 4360.

FACS 4362. Presentation Techniques. 3 Hours.

A study is made of different types of presentations used to communicate a technique, an idea, or a product. Principles and techniques of communication and media, with emphasis on classroom, extension and commercial presentation, are covered. Classroom experience includes actual preparation and presentation of lecture materials for direct and video audiences. Also included is development of resumes and portfolios. (3-0).

Prerequisite: Junior Standing.

FACS 4363. Merchandising Control. 3 Hours.

Techniques of merchandise control including retail mathematics involved in markup, markdown, stock control, open-to-buy, inventory control, pricing and financial statements are studied. Consideration is given to managerial decisions based on the mathematical information encountered in retailing. Recommended prior to FACS 4369 Internship. (3-0). Offered spring semesters.

Prerequisite: FACS 3371, ACCT 2301, or consent of instructor, junior standing.

FACS 4364. Mth Tchng Fam & Consumer Sci. 3 Hours.

A study of professional competencies required to teach family and consumer sciences including development of curriculum. Analysis and evaluation of teaching methods, procedures, strategies, and resource materials used in Family and Consumer Sciences. Laboratory situation includes preparing, presenting and video taping micro teaching experiences. Cross-listed with CISE 4364. (3-0). Also offered through the FCS Alliance.

Prerequisite: Admission to Teacher Education program, CISE 3383 or FACS 4333 with a grade of C or better.

FACS 4365. Studnt Tchng Fam & Consumer Sci. 3 Hours.

Supervised observation and teaching in Family and Consumer Sciences. Off-campus teaching centers furnish laboratory experiences for the courses. Activities include work with the total school program, supervising and working with occupational activity program, parental contacts, advisory council, and FCCLA. Advance registration required. (6-0).

Prerequisite: Twelve hours secondary education, forty hours family and consumer sciences, FACS 4364 .

FACS 4366. Stdnt Tchng Fam & Consumer Sci. 3 Hours.

Supervised observation and teaching in Family and Consumer Sciences. Off-campus teaching centers furnish laboratory experiences for the courses. Activities include work with the total school program, supervising and working with occupational activity program, parental contacts, advisory council, and FCCLA. Advance registration required. Cross-listed with CISE 4396. (6-0).

Prerequisite: Twelve hours secondary education, forty hours family and consumer sciences, FACS 4364.

FACS 4367. Smn Cloth Textiles & Mdseing. 3 Hours.

This course consists of inquiry in special areas of clothing: marketing, production, consumption and socioeconomic behavioral aspects of consumers of textiles and clothing. (3-0). Offered fall semesters.

Prerequisite: FACS 3371, junior standing.

FACS 4369. Internship. 3 Hours.

Course consists of a supervised off-campus work experience in an approved cooperative business or agency to better understand the challenges and potential of various careers in family and consumer sciences professions and services. Student obtains own position in keeping with the major program area. A minimum of three hundred (300) supervised clock hours is required for appropriate credit, and student must be enrolled in FACS 4369 at the time the work is being completed. Taken on acceptance of the application.

Prerequisite: Departmental Approval Required and 100 completed hours.

FACS 4370. Adv Food Sys Org & Mngt. 3 Hours.

Course is focused on principles of organization and management as they relate to food service systems; development of managerial and motivational skills; communications; decision making; management by objectives. (3-0). Offered spring semesters.

Prerequisite: FACS 3445.

FACS 4371. Nutrition Assessment. 3 Hours.

This course uses a problem-based learning approach to case studies. These case studies are integrated within an assessment lab to foster development of independent, subjective, global nutritional assessments for working in a clinical setting. Digital based scenarios are used. Offered fall semesters.

Prerequisite: FACS 2362.

FACS 4372. Resource Management. 3 Hours.

Managerial and social problems pertaining to individuals and families are examined. Emphasis is placed on decision-making of time, energy, and financial management as well as efficient use of resources. (3-0). Offered spring semesters or through the FCS Alliance.

Prerequisite: Junior standing.

FACS 4373. Cultural Food Practices. 3 Hours.

Cultural food practices from around the world will be studied. Students will learn various nutrition education strategies used to make effective dietary changes in keeping with cultural norms. An exploration and appreciation of how cultural factors effect our food patterns will assist in developing cultural competency. Offered spring semesters. Credits 3.

Prerequisite: FACS 1441, and FACS 2362.

FACS 4392. Independent Study in Family and Consumer Science. 3 Hours.**FACS 4395. Special Topics Fam&Con Science. 3 Hours.**

Chair: **Susan A. Reichelt**

Valencia Browning-Keen, Ph.D. (vbk001@shsu.edu), *Associate Professor of Family and Consumer Sciences, Department of Family & Consumer Sciences*, Ph.D., Texas Woman's University, Denton, TX; M.S., Case Western Reserve University, Cleveland, OH; B.S., Lipscomb University, Nashville, TN

Laura P. Burleson, Ph.D. (hec_lpb@shsu.edu), *Assistant Professor of Interior Design, Department of Family & Consumer Sciences*, Ph.D., Texas Tech University; M.S., Oklahoma State University; B.S., Oklahoma State University

James G. Landa, M.F.A. (jgl006@shsu.edu), *Assistant Professor of Family and Consumer Sciences, Department of Family & Consumer Sciences*, M.F.A., The University of Georgia; B.S., Colorado State University; B.S., North Dakota State University

Susan A. Reichelt, Ph.D. (srx067@shsu.edu), *Associate Professor of Family and Consumer Sciences and Chair, Department of Family & Consumer Sciences*, Ph.D., Iowa State University; M.S., Florida Institute of Technology; B.S., University of Wisconsin, Stevens Point

Janis H. White, Ph.D. (hec_jhw@shsu.edu), *Associate Professor of Fashion Merchandising and Design, Department of Family & Consumer Sciences*, Ph.D., Texas Woman's University; M.A., The University of Iowa; B.A., Sam Houston State University

Interim Faculty

Shelby A. Brock, M.S. (sab014@shsu.edu), *Clinical Assistant Professor of Family and Consumer Sciences, Department of Family & Consumer Sciences*, M.S., Sam Houston State University; B.A., Sam Houston State University
