

MASTER OF MUSIC

The Master of Music is specifically designed to develop the musician, scholar, therapist, or educator for a professional career in music. This degree is offered with tracks in the following areas:

- Performance
- Collaborative Piano/Chamber Music
- Conducting
- Composition
- Musicology
- Music Therapy

Students seeking admission to the graduate program in music must submit all documents to the Office of Graduate Admissions. In addition, the following are required:

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Students must complete the School of Music admission requirements:
 - Submit School of Music application form
 - Submit three letters of recommendation
 - Complete an audition and/or interview (see individual tracks for specific requirements)
4. A submission of scores from the Graduate Record Exam (GRE) is required. For a final admissions decision, GRE scores do not constitute the sole criterion for consideration of the applicant, nor do GRE scores constitute the primary criterion to end consideration of an applicant. The applicant's test scores will be compared with those of other applicants from similar socioeconomic backgrounds to the extent that those backgrounds can be properly determined and identified by the School of Music's admissions process.
5. Transcripts from all previous college level academic work are required and should be submitted to the Office of Graduate Studies. An undergraduate/Baccalaureate degree from a NASM-accredited institution or equivalent international degree in music is required.
6. International students must submit an official TOEFL score of at least 213 on the computer-based exam, or at least 550 on the paper-based exam.

All students pursuing graduate degree programs must take and satisfy the Graduate Music Diagnostic Exam, administered by the SHSU music faculty, prior to the first semester of residence. The exam includes questions concerning music history, music theory, and if required, foreign language and diction (Vocal Performance, Choral Conducting, and Collaborative Piano/Chamber Music only). The purpose of the Graduate Music Diagnostic Exam is to evaluate each student's general musical knowledge and identify deficiencies. Students deficient in any area will be required to retake and pass the Diagnostic Exam before they can schedule their M.M. comprehensive oral examination. Students should visit School of Music (<http://www.shsu.edu/academics/music>) for specific information and dates.

- Successful completion of a comprehensive oral examination is required for graduation. This exam, which is administered by a committee of three music faculty, is given during the final semester. Oral examination committees are appointed by the Graduate Advisor in consultation with the Graduate Committee and student. Students must be enrolled the semester in which they take comprehensive examinations.
- All graduate music students must complete the core hours and the specific track hours to meet the required minimum of 30 hours beyond the undergraduate degree.
