RN TO BSN

The RN to BSN program courses are 100% online to accommodate a working nurse's schedule. Full and part-time options are available to provide flexibility for the working registered nurse. Faculty are available at The Woodlands Center for questions and advising.

The RN-BSN Online Track is designed for the student who is enrolled in or graduated from a community college with a degree in nursing and will be eligible to sit for the NCLEX-RN, or who has passed the NCLEX-RN, holds a current, unencumbered Texas license as a registered nurse and wishes to obtain the baccalaureate degree. Earning a baccalaureate degree will open more doors in an RN's nursing career, allowing for positions of leadership, enhanced career advancement opportunities, and the potential to pursue graduate education.

There are three types of admission to SHSU's RN to BSN program:

1) Unconditional Admission

2) Conditional Admission

3) Joint Admission while enrolled in a community college nursing program.

The table below illustrates the requirements for each type of admission.

Admission Type	Application to SHSU	Application to RN BSN	Texas RN License	Cumulative GPA	Prerequisiste GPA [1]	Proof of Clinical Readiness	Completion of all Prerequisite Courses
Unconditional	X	X	X	2.5	2.5	X	X
Conditional	X	X	Within 1 Semester	2.5	2.5	X	Within 1 year*
Joint	X	X	Before beginning clinical courses	2.5	2.5	X	Before beginning clinical courses**

Notes

* For Conditional Admission, pre-requisite courses may be taken following enrollment in RN-BSN program, but must be taken within one year.

** Joint Admission students may apply after completion of 1st semester ADN courses. Students must have unencumbered RN license to practice in Texas prior to enrolling in clinical courses.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The RN to BSN is designed to provide graduates with the following marketable skills:

- Lead in the provision of safe quality care using evidence-based practice.
- Collaborate with patients and members of the healthcare team to promote health and provide preventive care.

- Incorporate ethical principles and professional standards to provide quality care to diverse populations.
- Advocate for patients and the nursing profession while incorporating dynamic system practices, health policies, and global healthcare factors.

- Maintain confidentiality and protect patient rights utilizing technology and information management systems.
