The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The BA in French is designed to provide graduates with the following marketable skills:

- · Assesses best cultural and language practices, and competences to engage with others in professional, academic, and social contexts.
- · Engage in pluricultural identities, mediate among cultures, and navigate cultural differences.
- Evaluate assumptions, concepts, language and culture to develop feasible solutions based on analysis and interpretation of results.
- Apply knowledge and skills to implement sophisticated, appropriate, and workable solutions to address complex problems using multilingual and multicultural perspectives.
- Adapt and apply a deep understanding of multiple world views, experiences, and power structures while initiating meaningful cross-cultural interaction to address significant global questions.
