The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The BA in Homeland Security Studies is designed to provide graduates with the following marketable skills:

- · Think critically, conduct analysis, derive conclusions based on evidence, and communicate effectively.
- · Understand strategic policy-making to address homeland security challenges.
- · Understand the interagency environment, the legal frameworks, and the international context in which the homeland security enterprise operates.
