The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The BS in Psychology is designed to provide graduates with the following marketable skills:

- Exhibit effective oral presentation skills.
- Gain experience working with diverse groups of people who are collaborating to achieve a common goal.
- Engage in innovative and integrative thinking and problem solving.
- Design, conduct, and interpret basic psychological research by developing creative research hypotheses and testing those hypotheses.
