BUSINESS ANALYSIS (BANA)

BANA 2372. Business Analysis. 3 Hours.
This course is an introduction to the use of quantitative business techniques. Students will learn the following topics in this course: organizing and presenting data, descriptive statistics, probability, discrete and continuous distributions, systems of equations, modeling, optimization procedures, and statistical inference.
Prerequisite: MATH 1324 or MATH 1420 or MATH 1314.

BANA 3363. Inter Business Analysis. 3 Hours.
This course is a continuation of BANA 2372 and is designed to introduce the use of statistics as a business tool in the face of incomplete knowledge. Students will learn the following topics in this course: estimation, hypothesis testing, analysis of variance, goodness-of-fit measures, correlation, simple and multiple regression.
Prerequisite: 50 Completed hours and BANA 2372.

BANA 3364. Operations Research. 3 Hours.
In this course, students will learn quantitative methods used in the analysis of business problems. Topics include: decision theory, linear programming, transportation and inventory models, Bayesian probability, and queuing theory.
Prerequisite: 50 Completed hours and BANA 2372.

BANA 4080. Independent Study. 3 Hours.

BANA 4365. Intro To Bus Forecasting & Econ. 3 Hours.
In this course, students will apply statistical methods for business and economic forecasting and for hypothesis testing, estimation, and analyzing economic data.
Prerequisite: 50 Completed hours and ECON 2301, ECON 2302, and BANA 3363.
