Financial Aid and Scholarships Office

The Financial Aid and Scholarships Office at Sam Houston State University is available to assist students in achieving educational goals even when their personal or family finances are limited. While the student and/or his or her immediate family are primarily responsible for financing an education, the University recognizes its role in making a maximum effort to acquire additional funds for qualified students through a variety of aid programs. Specific financial aid programs the University administers are listed below.

**Resignations/Withdrawals**

Students who receive Title IV financial aid and withdraw or drop all courses during the semester must be aware of the impact on their financial aid. Federal Title IV aid includes Pell Grant, Supplemental Educational Opportunity Grant, and Subsidized/Unsubsidized Stafford Loans. It is recommended that students visit with their Financial Aid Counselor prior to withdrawing or dropping courses.

Title IV aid recipients must be continuously enrolled for at least 60% of the semester for which aid is disbursed to retain all of the financial assistance issued for that semester. After the 60% point, students are considered to have earned 100% of the Title IV funds disbursed. Any student who resigns prior to completing 60% of a semester must repay any unearned portion of their federal financial aid.

The amount of the repayment depends on the number of days attended during the semester, the type and amount of financial aid received and the total amount of institutional charges.

Earned federal financial aid is prorated according to the percentage of the semester completed. The earned aid is determined by the amount of total aid received minus the amount of unearned aid.

American Opportunity Tax Credit and Lifetime Learning Tax Credit

Tax payers may be eligible to claim the American Opportunity Tax Credit against their federal income taxes. Depending on the family and student financial situation, the credit that may be claimed varies. It may be as much as $2,500 (100% of first $2,000 and 25% of second $2,000 of qualified tuition and related expenses such as tuition, fees and course materials).

In addition, the Lifetime Learning Credit may be available for up to $2,000 per family for qualified tuition and related expenses. Congress has established that the Lifetime Learning Tax Credit begins for payments made after July 1, 1998.

These tax credits may reduce the amount of federal income tax one is required to pay. These tax credits are reviewed by the federal government periodically, therefore, annual referral to the IRS website is recommended.
