DEPARTMENT OF GENERAL BUSINESS AND FINANCE

Chair: Dr. Tommy (Joey) Robertson (tjr004@shsu.edu); (936) 294-1278

Website: Department of General Business and Finance (http://www.shsu.edu/academics/general-business-and-finance/)

Vision
To deliver outstanding Banking, Finance, Entrepreneurship, and General Business Administration programs with faculty that is recognized for excellence in instruction, research, and service.

Mission
The mission of the Department of General Business and Finance is to assist in fulfilling the mission of the University and the College of Business Administration by providing students with an academic foundation to become productive citizens, to develop successful careers, and to provide interested students with the background to pursue graduate or professional studies. The academic foundation leading to a Bachelor of Business Administration degree in Banking and Financial Institutions, Entrepreneurship, Finance, or General Business Administration is designed to arouse intellectual curiosity, develop analytical reasoning, and provide historical and current information relative to the global environment.

Academic Programs
The Banking and Financial Institutions degree program prepares students for officer-level positions in banks, regulatory agencies, and other financial institutions. The Entrepreneurship degree program prepares students to serve as chief executive officers of start-up and growth-oriented businesses and to apply entrepreneurial principles in positions of responsibility in larger business enterprises and not-for-profit organizations. The Finance degree program provides students with the knowledge of the problems and opportunities that confront entities in the field of finance. The General Business Administration degree program provides a solid foundation in business and sufficient electives to customize a degree plan for directed career paths.

Highlights
The Department of General Business and Finance, through the Smith-Hutson Chair of Banking, provides the leadership for the Executive MBA in Banking. In addition, the College of Business Administration participates in the certified Professional Golf Association of America's Professional Golf Management program with participating students receiving the BBA degree in General Business Administration with a concentration in PGA Professional Golf Management.

Suggested Minors
Both the Banking and the Finance degree majors have limited electives available; therefore, no minor is required. Students in these two areas may elect to declare a minor; however, the additional courses will add to the length of their programs.

An entrepreneurship minor would be very beneficial to students anticipating starting or running their own businesses.

General Business Administration majors should consider a minor in one of the approved business minors to provide depth of knowledge in at least one business field.

Internships
The department has historically been very successful in offering internships in the financial institutions area. This program has been expanded to include internship opportunities specifically designed to meet the PGA Professional Golf Management program requirement. Internships for students interested in other business environments are also becoming increasingly available.

Scholarships
Scholarships are available on a competitive basis for Banking, Finance, General Business Administration, and Entrepreneurship majors. Students are encouraged to apply for scholarships using the Scholarships4Kats program at Financial Aid. The Scholarships4Kats program is a single application that will allow the student to apply for most scholarships available on campus whether at the departmental, college, or university-level. The deadline for applying for Department of General Business and Finance scholarships is December 31.
