

# HUMAN SCIENCES (HUSC)

---

**HUSC 5323. Interiors & Aging Population. 3 Hours.**

This course provides an in-depth study of how interior environments affect the aging population, primarily focusing on housing issues and options. Emphasis is on policy, needs assessment, finances, and physical design.

**Prerequisite:** Graduate Standing.

**HUSC 5330. Seminar Human Science Rsch. 3 Hours.**

A course designed to acquaint graduate students with the need for and contribution of research. Criteria are developed for designing and completing research.

**HUSC 5375. Seminar in Recent Developments in Family and Consumer Sciences. 3 Hours.**

A critical analysis of current trends, issues, and problems in Human Sciences. Course may be repeated for credit.

**HUSC 5380. Aging Population Needs. 3 Hours.**

This course is focused on the broad principles of human sciences and effects of interior environments, food and nutrition, fashion, apparel and textiles related to an aging population.

**HUSC 6098. Thesis I. 1-3 Hours.**

This phase of the thesis investigation includes the completion of the review of the related literature, formulation of the research design and procedures, and related pilot studies. Some data collection may also occur, and the thesis symposium must be completed to the satisfaction of the advisor and members of the thesis committee. Variable Credit (1-3).
