The BS in Human Performance and Wellness Management (HPWM) prepares students for a career in corporate, private, and commercial fitness. Future job prospects include wellness coordinator, personal trainer, strength and conditioning specialist, and other fitness specializations.

This degree is focused on applied settings where you will be working with the general population, such as at a performance center, commercial gym, or recreational facility.

This degree will also allow completion of prerequisites for entry into an occupational therapy masters program if the suggested elective block (PSYC 3331 (<http://catalog.shsu.edu/archives/2023-2024/search/?P=PSYC%203331>), PSYC 3333 (<http://catalog.shsu.edu/archives/2023-2024/search/?P=PSYC%203333>), PSYC 3374 (<http://catalog.shsu.edu/archives/2023-2024/search/?P=PSYC%203374>)) is taken, and you may also need a medical terminology course of 1-3 hours.

For students interested in Strength and Conditioning, owning their own fitness business, or interested in the marketing and management of fitness and wellness should focus their electives on those classes. A minor is not required for this degree, but is allowed (additional coursework may be needed).
