The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The BS in Engineering Technology is designed to provide graduates with the following marketable skills:

- · Communicate technology problem solutions.
- · Apply technology tools in applied engineering and technology.
- · Analyze data and notice trends to successfully provide solutions.
- · Team-based skills including leadership and conflict resolution abilities.
- Prepare to engage in lifelong learning.
