

MASTER OF FINE ARTS IN DIGITAL MEDIA PRODUCTION

The MFA program in Digital Media Production at Sam Houston State University is a terminal degree program that equips media practitioners and media education professionals with sophisticated knowledge of emerging media technologies and digital media content. The degree program also empowers students to create professional digital media content across different platforms, media, and distribution methods.

The program covers a variety of issues in Digital Media Production, including mobile application development, digital streaming techniques, mobile content creation and editing software, motion graphics and effects, and the comprehensive analysis of social media. These skills are not only essential for employment in traditional media industries, but also of growing importance to educational institutions, government entities, global conglomerates, and local corporations.

To earn the MFA degree, students are required to take 54 course credits and to submit a digital media portfolio. The portfolio is evaluated during the final semester by a committee of three mass communication faculty. Digital media portfolio evaluation committees are appointed by the Graduate Advisor in consultation with the Graduate Committee and student. Students must be enrolled the semester in which they submit their portfolio for evaluation.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/digital-media-production/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students wishing to pursue an MFA in Digital Media Production must meet the following requirements and submit all documents to the Office of Graduate Admissions.

1. Graduate Admissions Application (submitted online through ApplyTexas (<http://www.shsu.edu/admissions/apply-texas.html>))
2. Application Fee
3. An official transcript from a baccalaureate degree-granting institution
4. A 500-word personal statement outlining personal goals and objectives for the program
5. A digital media portfolio or a link to an online digital media portfolio
6. Contact information for three references
7. A current resume
8. **For International Students Only:** Required TOEFL score of 550 (paper-based), 2/3 (computer-based), or 79 (internet-based)

Assistantship Deadline:

Students seeking graduate assistantships should complete their application by **March 23rd** for best consideration.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MFA in Digital Media Production is designed to provide graduates with the following marketable skills:

- Acquire strong communication skills.
- Produce evidence-based research.
- Demonstrate technical production skills.
