

MASTER OF LIBRARY SCIENCE

The Master of Library Science (MLS) is designed to prepare competent professionals for school librarianship. The MLS program will introduce students to library collection development that supports the curriculum as well as reading for pleasure; comprehensive review of children's and young adult literature; how to manage a school library; information and digital literacies; digital tools that school librarians use; reference and services; and cataloging, classification, and subject analysis techniques.

Graduates of the MLS program will also have the required coursework necessary for the School Librarian Certification exam in Texas. To be recommended for Texas certification, you must have a valid teaching certificate, two years of teaching experience, the requisite coursework to take the exam, as well as any other requirements included in the Texas Administrative Code for the School Librarian Certificate.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/library-science/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Master of Library Science is designed to provide graduates with the following marketable skills:

- Collaboration and teamwork.
- Ethical practices.
- Planning and organizational skills.
- Communication.
- Technology use in the library.
- Leadership.
- Creativity, critical thinking, and problem solving.
- Flexibility.
