The following minors cannot be paired with this degree program: Minor in Finance, Minor in General Business Administration.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The BBA in Finance is designed to provide graduates with the following marketable skills:

- Understanding of investments including: the ability to quantify price and yield metrics and measure performance for both fixed-income and equity securities singularly and in portfolios; understanding risk, return, and diversification; and understanding options both for hedging and speculation.
- Understand the function of the financial system, including the operations and structure of the Federal Reserve and banking system, bond markets, stock markets, and understanding money markets.
- Proficiency in calculating historical and prospective financial ratios used in analyzing financial statement data, in manipulating financial accounting data as needed to gain a broader understanding of financial accounting relationships, and in interpreting financial ratios and similar metrics used in making investment and financing decisions.
- Ability to create and analyze information useful to the managers of a firm, including understanding and explaining the cost of capital, cash flows as they form the basis for valuation of real and financial assets, and demonstrating the ability to summarize and analyze potential investment projects.
