The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The course content of the BA in Bilingual Health Care Studies Program will prepare students with the following marketable skills.

- Effectively communicate professional health information to patients and clients in need of medical services.
- Conduct health and wellness activities and presentations to in the native language of the participants.
- Develop health programs that include the cultural mores and ethno-medical practices of the target population.
- Serve as a resource person to connect underrepresented populations to social, educational, and medical services in the community, state, and nation.
- Act as culturally competent patient navigator for families and patients receiving medical care in health clinics, hospitals districts, health departments, and hospital systems.
- Conduct health-related needs assessments to under-served populations in communities.
- Develop valid and reliable evaluation strategies to determine the effectiveness of health programs, campaigns, and events.
