The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The BS in Biomedical Sciences is designed to provide graduates with the following marketable skills:

- Master the depth of knowledge required for a degree in biomedical sciences.
- Demonstrate critical thinking.
- Communicate effectively.
- Work collaboratively.
