

# BACHELOR OF SCIENCE, MAJOR IN KINESIOLOGY (CLINICAL EXERCISE SCIENCE)

This degree track prepares students for a career in Clinical Exercise Science. Future job prospects include cardiac rehabilitation, hospital/clinic-based fitness and wellness facilities, sport-science based performance facilities, and/or research facilities. This degree also prepares students for further Graduate Education in Exercise Science, Sport and Human Performance, and Health Professions fields (e.g., physical therapy, occupational therapy, prosthetics and orthotics, physician assistant, athletic training, nursing, osteopathic medicine, chiropractic, pharmacy, etc...). A minor is not required for this track, however, electives should be used to fulfill courses related to one's career goals. Take careful consideration when selecting your electives to ensure they meet your career goals or your graduate school prerequisites (see course suggestions in the footnotes below).
