

LICENSURE AND CERTIFICATION DISCLOSURE

General Disclosure

Notice to students pursuing programs that may lead to a professional license or certification required for employment.

The identified programs may lead to a professional license or certification that is required for employment. Professional licensure/certification requirements vary from state to state, which may affect a student's ability to apply for a professional license/certification upon the completion of the program. The U.S. Department of Education regulation, *34 CFR 668.43 (a) (5) (v)*, requires an institution to disclose whether the program will fulfill educational requirements for licensure or certification for each state. The administrative departments that offer the programs have made the following determination regarding their curriculum.

We recommend students contact the appropriate state licensing agency in their state or the state where they intend to work to seek the most up-to-date information about state licensure/certification requirements
