

GRADUATE CERTIFICATE IN HEALTH CARE QUALITY AND SAFETY

Program Coordinator: Rosanne Keathley, Ph.D. (hpe_rsk@shsu.edu), (936) 294-1171

The online Graduate Certificate in Health Care Quality and Safety is targeted toward busy health care professionals engaged or planning to be engaged in leadership roles in the quality and safety areas in hospitals, nursing homes, clinics, and other health care organizations. Professionals in health care quality and safety manage the strategic and operational aspects of quality operations; establish goals and standards; lead the quality improvement programs; provide training and coaching in quality improvement tools and techniques; develop, implement, and monitor measures to assess quality performance; direct organization-wide quality initiatives, including the National Patient Safety Initiatives; and direct ongoing monitoring of accreditation survey readiness activities.

This certificate program is designed for health care professionals and administrators, who are at a point in their careers where they require advanced skills and knowledge to develop, manage, and sustain a culture of excellence in organizations and health systems.

This Graduate Certificate is not eligible to receive Title IV funding – Direct Loans, Pell Grant, TEACH Grant, SEOG Grant, or Federal Work Study. Students enrolled in this program should explore alternative funding options and are encouraged to contact the financial aid office for assistance.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/health-care-quality-and-safety/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants must have earned an undergraduate or graduate degree and be currently working or have worked in a health care related field for more than 3 years.

Specific requirements for admission to the Graduate Certificate in Health Care Quality and Safety program are as follows. All required items should be submitted to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<https://www.shsu.edu/admissions/apply-texas.html>)
2. Application Fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>)
3. Undergraduate degree from an accredited U.S. institution or with Admission Committee approval
4. Official transcript(s) from all post-secondary schools attended
5. Minimum GPA of 3.0
6. Contact information for two to three potential references. This list should include the full names, emails, phone numbers, professional titles, and relationship to the applicant.
7. A CV or resume

The coordinator and the admissions committee of the certificate program and the M.S. in Health Care Quality and Safety program will review all applications and will determine satisfactory completion of certificate requirements.

Note: Transfer of credit from other institutions may not be applied toward the credits required for the certificate.

The Graduate Certificate in Health Care Quality and Safety requires five (5) graduate courses or 15 semester credit hours. These courses will be offered online. The certificate program may be obtained in as little as 9 months, depending on the chosen elective course.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Health Care Quality and Safety is designed to provide graduates with the following marketable skills:

- Demonstrate knowledge of the health care quality and safety profession.
- Demonstrate ability to recognize and solve health care quality and/or safety issues.
- Participate in research of and find solutions to problems in the field of Health Care Quality and Safety.
- Recognize leadership and management theories and practices including those of change management.
- Apply knowledge of the current United States health care system in solving problems.
