MINOR IN LEARNING TECHNOLOGIES

The Minor in Learning Technologies prepares students to become instructional design and technology practitioners. Students design and deliver effective, learner-centered experiences for diverse audiences and settings, including educational, corporate, government, and non-profit environments.   The curriculum provides the foundational knowledge to manage the systems and infrastructure that support instruction and learning with emerging technologies.

Code	Title	Hours
Required Courses		
LETE 2303	Systematic Evaluation & Development for Learning Design I	3
LETE 3301	Learning and Technology Foundations	3
LETE 3302	Learning Design	3
LETE 3303	Systematic Evaluation & Development for Learning Design II	3
Prescribed Electives		
Select two courses from the following:		6
LETE 1301	Technology in Education	
LETE 1302	Online Technology and Learning Strategies	
LETE 1303	Learning Technology Tools	
LETE 2301	Web Technologies for Learning
