

BACHELOR OF SCIENCE, MAJOR IN PUBLIC HEALTH

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/bachelor-of-science-in-public-health/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Requirements: **Students enrolled in the BS in Public Health program must maintain a minimum GPA of 2.75 or higher in all areas.** This minimum GPA requirement is mandated by the Council on Education of Public Health, the accrediting organization for public health education programs. The first semester a student earns a GPA below 2.75, he/she must meet with the BS in Public Health Program Coordinator to develop a plan of study to improve their GPA. **The second semester a student earns a GPA below 2.75, she/he must declare a new major. In most cases, a student will change their major to one of the following program areas that will allow students to enter that degree with a GPA below 2.75 while also minimizing loss of previously completed credits in HLTH courses: Health Sciences, Health Care Administration, Bilingual Health Care Studies, or another area.**

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The BS in Public Health is designed to provide graduates with the following marketable skills:

- Participate in a proactive manner the day-to-day tasks of public health organizations.
- Conduct data collection and analysis to investigate public health issues.
- Participate in public health fieldwork requiring cultural competency skills.
- Develop public health program plans to meet the needs of at-risk populations.

- Act as a resource specialist for public health outreach.
- Demonstrate effective public health communications to diverse populations.

These competencies are outlined in the Core Competencies for Public Health Professionals (http://www.phf.org/resourcestools/Documents/Core_Competencies_for_Public_Health_Professionals_2014June.pdf).
